

Thermocouple Connectors: Standard Accessories

ACCESSORIES: CRIMP INSERTS

Part # Select Calibration Code	Description
A-20.025-1	To suit 1mm OD probe
A-20.025-3	To suit 1/16" OD probe
A-20.025-7	To suit 1/8" OD probe
A-20.025-9	To suit 3/16" OD probe
A-20.025-14	To suit 3/16" ID flex armor
A-20.025-11	To suit 1/4" OD probe
A-20.025-12	Blank - Undrilled

Many other sizes available—please consult sales office

BEST QUALITY CRIMP INSERTS

Annealed after machining means that these inserts will not crack under the most extreme crimping. Brass inserts are then subject to a special nickel plating process that ensures the nickel layer does not peel, even under severe crimping operation. Large selection available to cover all possible sizes - also recommended for crimping on lead wire.
These are the strongest, best looking & highest quality crimp inserts available!

ACCESSORIES: WIRE CLAMP BRACKETS

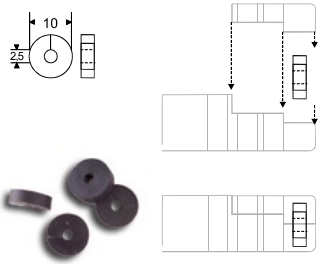

Part #	Description
A-20.055-1	Wire Clamp Bracket
HCC-S	Generic Low Cost Wire Clamp Bracket
A-20.055-3	Wire Clamp Bracket for Ceramic Connectors

ACCESSORIES: TUBE ADAPTORS

Part #	Description
HTA-S-16	To suit 1/16" OD probe
HTA-S-18	To suit 1/8" OD probe
HTA-S-36	To suit 3/16" OD probe
HTA-S-14	To suit 1/4" OD probe

Note: these tube adaptors are generic and not official Hamitherm products

ACCESSORIES: GROMMETS

Part #	Description
A-20.048-1	Neoprene ring slit for easy assembly
	Temperature Rating: 250°F max
